Happy New Year from the Team at RxOne!

Pictured left to right is the team from RxOne: Jessie, Melvin, Jenny, Fay, Margie, Ross, Becky, Phoebe, Rosemary and Wally (missing: Liam, Greg, Nicki)

May this new year bring you many reasons to be happy and healthy! We look forward to working for and with you optimise our product and service delivery for Australia's (and New Zealand's) most complete and fully integrated pharmacy platform.

ChinaPay Integration

Chinese payers, businesses, students, travellers and consumers can now pay in Chinese Yuan Renminbi (CNY) using AliPay, WeChat, JDPay or one of 19 compliant online banks directly at your pharmacy via RxOne POS. This new integration will enable a unique and hassle-free shopping experience for your customers who are spending CNY. Call or email us to register your interest in a trial of ChinaPay!

MYOB and Xero Integration

**HAVE YOU
SEEN OUR LATEST
INTEGRATION?**

www.rxone.com.au 1800 887 610

We are happy to offer the ability to link sales data automatically to MYOB and Xero. Sales data such as End Of Day values and PBS reimbursements can be automatically sent to your MYOB or Xero account, EOD figures are sent upon running the EOD Report, while PBS reimbursement information is sent to MYOB upon receipt via RxOne. Note that we also have full creditors integration with Xero. Contact us now for more information, call 1800 006 207 or email info@rxone.com.au.

Changes To The PBS Schedule

The TGA has updated over 200 active ingredient names as part of their International Harmonisation of Ingredient Names (IHIN) reform. Around 90 of these changes will affect medicines listed on the Pharmaceutical Benefits Scheme (PBS). The bulk of the changes to the PBS have been incorporated since 1st January.

“The program is being amazing, everything is so automatic.”

- Faiz Ferdosian, Owner of Artisan Chemist

“We have been using CompoundPro for over 10 years and love the fact that it calculates quantities for all ingredients. The software being linked to our scales gives us great accuracy and traceability. It has changed the way we are working, for the better, giving us a stronger sense of security as we always know what has been done and can always retrieve the information if needed. The support team is also very approachable and reactive.”

- Marie Moolenaar, Docklands Business Manager at Slade Pharmacy

CALL US! 1800 887 610 TO DISCUSS A NEW YEAR'S SPECIAL

May the new year bring you many reasons to be happy!

At RxOne we are constantly improving and making life easier for our customers. Help us help you.

- Instant Help is a great resource within RxOne that can be used to educate your staff. Please encourage your staff to look in Instant Help first, before contacting our support staff.
- Please email your non-urgent queries to support@rxone.com.au.
- If you have a supplier who is not in RxOne Supplier Update, request the supplier to email their price file directly to us at priceupdates@rxone.com.au. We will load the file into RxOne to make it easy for you to create stock cards through the Supplier Update utility in bulk.
- If you use KeepItSafe to handle your off-site back-ups, do not ignore messages on your screen that indicate that the back-up has not been done. Please let us know if you receive this message.
- Please let us know about any change of ownership as soon as possible before it occurs, so we are able to support you through the process.
